Detail Introduction :

Product ingredients:

Nicotine	The main ingredient in Wholesale Nicotine Packets is nicotine, a central nervous system stimulating substance developed to meet the needs of nicotine users. It is usually available in different nicotine concentrations to meet the needs of different users.
Matrix	These nicotine pods typically contain a food-grade matrix to carry the nicotine and flavor. This matrix is biodegradable, ensuring product quality and taste.
Flavor Additives	In order to provide a variety of appealing flavor options, Wholesale Nicotine Packets may contain a variety of flavor additives such as fruit, mint, chocolate, etc.

Product storage method:

Store Wholesale Nicotine Packets in a dry, dark and ventilated place away from direct sunlight and high temperatures.

Products are usually supplied in sealed packages, ensuring freshness even if unopened.

Avoid exposing the product to moisture or liquids, which may affect quality and taste.

Product usage:

Using Wholesale Nicotine Packets is easy. Users simply remove a nicotine packet, place it in their mouth, usually between their upper or lower lips, and gently chew or suck on it.

Keep the nicotine pack in your mouth for a while until you feel satisfied or until the nicotine is released.

Dispose of used nicotine packets properly after use.

Product advantages and features:

SMOKING ALTERNATIVE: Wholesale Nicotine Packets are a smoking alternative that allow smokers to satisfy their nicotine needs while avoiding the combustion and smoke of traditional tobacco.

Flavor Variety: These products offer a wide variety of flavor options to suit a variety of taste preferences.

Customized nicotine intake: Users can customize nicotine intake according to their needs and get a personalized smoking experience.

Convenient to carry: Wholesale Nicotine Packets are small, lightweight and easy to carry, allowing users to meet their nicotine needs at any time.

Reduces Secondhand Smoke Exposure: Because there is no combustion and no smoke produced, Wholesale Nicotine Packets reduce secondhand smoke exposure to others.

Anti-smoking aid: For people who want to quit smoking, these products can be used as a transitional product to gradually reduce nicotine intake, helping to reduce nicotine dependence.

It is important to note that although Wholesale Nicotine Packets have some potential advantages over traditional tobacco products, smoking and nicotine use still need to be done with caution and within legal limits.
